## SKODA WORKS LEFT FLAMING BY PILOTS OF ROYAL AIR FORCE

British Bombers Strike Even Farther From Home In Successful Attack On Huge Munitions Works In Czechoslovakia—Fourteen German Air Bases Are Among Targets of Offensive

LONDON, Oct. 28 (P).—British bombers ranging farther from home than ever before in their systematic assault on Germany were reported tonight to have bombed successfully and left in flames the huge Skoda armament works in Czechoslovakia.

The Air Ministry tersely declared a "strong force of Royal Air Force bombers" attacked the works at Pilsen, Bohemia, last night.

The Ministry's news service, in amplification of the formal statement, said the British bombers set the plant on fire after a 750-mile flight from the British coast through dirty weather.

Never relaxing their attacks on the "invasion coast" opposite England, Blenheim bombers of the coastal command were reported by the news service to have hit a power station at the Nazi-held French naval base of Lorient. A big blue flash spurted out of the station when the bomb hit.

The Quereville airbase near Cherbourg also was bombed with direct hits on a hangar.

The R.A.F. concentrated on oil refineries in other night bombing forays.

Other targets raided were fourteen German air bases, and the rail and water mains of Germany's communications system.

## TURKEY READY TO AID GREECE

Government Organ Says Nation Prefers War to Dishonorable Peace

ANKARA, Turkey, Oct. 28 (P).—Turkey, with its 2,000,000 beyazs, poised, closely watched the Italian invasion of her neighbor and ally, Greece, today, and the Government newspaper Ulus announced: "We prefer the hell of war to a dishonorable peace."

The editorial appeared as the Turkish republic celebrated its seventh birthday, apparently undecided whether to join its ally, Britain, in aiding Greece to resist the Italians.

Capital sources pointed, however, to a recent Government statement that Turkey would aid Greece in the event of an Italian attack—if Britain made good her promise to aid the Greeks.

(London announced today immediate aid to the Athens Government.)

The newspaper said further: "No one can assure the citizens until the storm of fire is over that our roofs will not catch after it. We are passing through a test of fate which demands clean hearts, strong confidence and complete co-operation until death. We recognize no limit of sacrifice."

The Turkish attitude, foreign observers said, was believed to depend somewhat on Russia, known to have ambitions on the Dardanelles Straits, controlling entry to the Black Sea.

In Budapest, rumors were current that Russia was preparing to take over the Dardanelles "protectively."

## No General Recruiting Call Likely

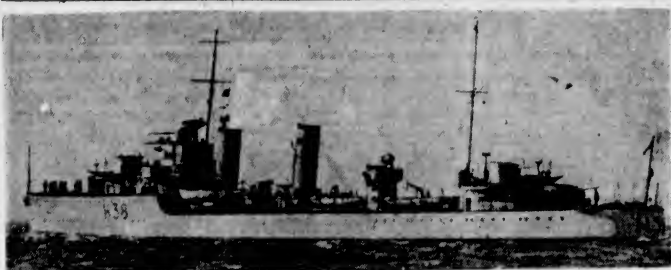

HALIFAX, Oct. 28 (P).—No general recruiting for the Canadian Active Service Force is anticipated for the time being, Defence Minister J. L. Ralston declared tonight during the course of a tour of the Dominion's Eastern defenses.

Colonel Ralston told newspapermen at a press conference, "recruiting conditions have been so satisfactory" that it was not considered there would be any general call for some time. Some tradesmen and skilled workers would be taken into units requiring them, but that would be all.

## H.M.C.S. Margaree Lost at Sea

The Margaree, Formerly the Diana of the Defender Class of Destroyers, Sank in the North Atlantic Following a Collision With a Large Merchant Ship. Casualties Totaled 140, and Survivors Thirty-One. The Loss of the Margaree Occurred on the Night of October 22.

Great Britain's King and Premier Assure Greece of Her Help

Canadian Destroyer Sinks After Collision With Merchant Ship in Atlantic

LONDON, Oct. 28 (P).—Britain tonight gave Greece assurance her wartime resources are behind the Balkan Kingdom, which Italian troops invaded at dawn. The King and Prime Minister Churchill personally sent messages stating that Britain will give every possible help.

"We are with you in this struggle," said the King's message to King George II of Greece.

"Your cause is our cause—we shall be fighting a common foe."

"There are doubtless hard trials to be borne, but we shall both meet them in the firm faith that ultimate victory is assured by the ever increasing strength of free peoples. We may hope, indeed, that we are already near the turn of the tide when the power of the aggressor will begin to ebb and our own growing might to prevail."

"We will give you all help in our power," Mr. Churchill said.

"We fight a common foe, and we will share a united victory."

## Canada's Queen Of Merchantmen Has Gallant End

Empress of Britain Sunk by Enemy Action West Of Ireland—Forty-Five Reported Missing and 598 Rescued—Ship's Crew Does Heroic Work—No Panic

LONDON, Oct. 28 (P).—The Empress of Britain, proud flagship of Canada's merchant marine in time of peace, and sturdy transport in war, has been sunk by "enemy action," the Admiralty and War Office announced today. Casualties were placed at forty-five missing. Five hundred and ninety-eight were rescued.

Last Saturday afternoon when she was 150 miles west of Ireland Nazi raiders attacked her, raking her decks with machine gun fire.

BOMBS RAIN DOWN  
High explosive as well as incendiary bombs rained down on the broad decks of the 42,348-ton vessel, which little more than a year ago carried the King and Queen back to Britain after their momentous tour of Canada.

A large bomb scored a direct hit amidships, crashing through the decks. First a raider attacked the bridge and the machine gunner, making a brave attempt to fight off the plane, was struck down.

Flames enveloped the bridge, but Capt. Charles Sapoworth remained there until forced to go to the fore part of the vessel. Most of the ship's crew were killed or wounded trying to beat off the attackers.

BLEW UP WHEN TOWED  
As the battered ship, tenth largest passenger vessel afloat, was being towed to port, after warships had rescued most of those on board, she suddenly blew up and sank. Germans claimed a submarine delivered the final blow.

## MENZIES MAKES OVER MINISTRY

Reorganizes Cabinet and Creates Post of Labor and National Defence

MELBOURNE, Oct. 28 (P).—Prime Minister Robert Menzies has reorganized his Cabinet, retaining his portfolio as Minister of Defence Co-ordination and creating a new post of Labor and National Defence.

(An Associated Press dispatch from Sydney said that Mr. Menzies also assumed the portfolio of Minister of Information.)

The new post goes to Harold E. Holt, a former assistant minister, who is being recalled from the Australian Imperial Force, where he is serving as an artilleryman, to take his seat in the Cabinet.

William M. Hughes, Australian Prime Minister in the first Great War, now seventy-six, retained his post as Attorney-General, but took on an additional ministry, that of the Navy.

## Lottery for Call to Arms Drawn Today

WASHINGTON, Oct. 28 (P).—The great United States draft lottery of 1940 will take place tomorrow.

War Secretary Henry Stimson, blindfolded, will reach into the historic goldfish bowl used for the first Great War draft drawing and extract a blue capsule, containing a slip upon which a number is printed to decide the men to be called for military training.

Other notables will follow him, and then the task of drawing approximately 8,500 capsules will be turned over to teams trained to do the job quickly and accurately.

## YOUTHFUL OFFICER IS AMONG VICTIMS

OTTAWA, Oct. 28 (P).—The Canadian destroyer Margaree lies at the bottom of the Atlantic Ocean—sunk in a wartime collision at sea after escaping destruction from enemy bombers while being prepared for service in the docks of London.

Missing and believed lost with this recent addition to Canada's expanded destroyer fleet are 140 officers and men, including her brilliant, youthful officer commanding, Cmdr. J. W. R. Roy. Thirty-one others, rescued by the merchant vessel whose steel hull sank their ship, are now en route to Canada.

The Margaree was acquired from Britain to replace the destroyer Fraser, by strange coincidence also the victim of a collision. Many of the men aboard the Margaree when she went down the night of October 22 were survivors of the Fraser disaster, which cost the lives of forty-five Canadian naval men off Bordeaux, France, last June.

SINKS IN DARKNESS  
Sinking of the Margaree occurred in the blackness of night over the North Atlantic. Both the destroyer and the big merchant ship were running without lights, through an area threatening enemy action.

The Margaree disaster is the largest single loss Canada has sustained in any of her armed forces during the war. With another individual casualty reported by the navy last night, it raised to 213 the total number of Canadian naval men reported dead and missing since hostilities began over a year ago.

This figure is greater than the combined total of casualties reported by the Canadian Active Service Force and the Royal Canadian Air Force. The C.A.S.F. casualties total ninety-eight; the R.C.A.F. seventy-three.

## LAVAL ASSUMES FURTHER POWER

Becomes Foreign Minister in Vichy Government—No Criticism Allowed

VICHY, France, Oct. 28 (P).—Vice-Premier Pierre Laval, his grip on authority in France strengthened by appointment as Foreign Minister, was en route to Paris tonight for "important discussions" expected to bear fruit this week.

Presumably he was to confer with German officials about aligning France with the Rome-Berlin Axis for "peace in Europe."

Already vice-president of the council, officially designated as Premier Laval's successor, chief of information and radio, and official negotiator with Germany, Laval today took over the Foreign Ministry. Former Foreign Minister Paul Baudouin became Secretary of State to the Presidency Council.

After first scheduling a broadcast to explain France's commitments with the Axis powers, Laval changed his plans, officials said, and will give an interview to Paris newspapers instead.

Government spokesmen said "The choice has now been made," that Frenchmen must accept it and that no criticism would be accepted.

Government spokesmen claimed France joined an "Axis Monroe Doctrine" for Europe—and that no Americans interests were involved.

Greece at War With Italy After Premier Rejects Duce's Demand for Territory—Great Britain To Keep Pledge to Aid Country Attacked—Defenders Stave Off Attacks

## Turkey Expected to Stand By British; Soviet Silent

ATHENS, Oct. 29 (P).—Greek mountaineer troops, outnumbered but craftily placed, reported early today they were clinging stubbornly to the Metaxas Line, staving off Italian attacks on the world's newest war front.

As war came to the long-apprehensive Balkans, the Greeks took heart from British naval help on both sides of their peninsula.

The Greek High Command, still mobilizing its men, sent train after train, jammed with singing reservists, toward the northwest frontier with Albania. Crowds cheered them at every station en route.

Athens, as yet unbombed, coolly awaited the appearance of Italian warplanes.

Yesterday's bombing of Patras and Piraeus also included an attempt by the Fascist flyers to hit the vital Corinth Canal, it was disclosed.

STRONG DEFENCES  
A Greek communiqué declared that throughout the day Italian forces of "varied strength" attacked Greek positions which were strongly defended, localizing the fighting to the Greek-Albanian border line.

Italian air raids on military targets did no damage, the communiqué said.

King George assumed command of all Greek armed forces and appointed General Alexander Papagos, chief of staff, as commander-in-chief.

The King sent a message to the army expressing confidence in victory.

By Government order, no news from Rome or Berlin is to be printed henceforth in the Greek press. The Rome Minister was ordered home.

The army communiqué: "During the day, Italian forces of varied strength continued their attack on our forces, which are defending their positions courageously."

## RESIGNATION IS NOT ACCEPTED

C.C.F. Delegates Ask J. S. Woodsworth to Retain His Leadership

WINNIPEG, Oct. 28 (P).—National Secretary David Lewis, Ottawa, tonight announced that delegates attending the sixth annual Co-operative Commonwealth Federation convention here had resolved unanimously not to accept the resignation of J. S. Woodsworth from his post of C.C.F. president and leader of the parliamentary group.

Mr. Woodsworth tendered his resignation from both posts today because of ill-health and difference of opinion with other members of the party regarding the war issue.

After rejecting Mr. Woodsworth's resignation offer, the convention passed a resolution asking Mr. Woodsworth to continue as C.C.F. president at least until the 1942 convention. Mr. Woodsworth's answer to the resignation rejection and the request that he continue in office is expected to be given to the convention tomorrow.

He has been president of the C.C.F. since its formation in Calgary in 1933 and is a member of Parliament for Winnipeg North Centre.

## ESCAPING NAZIS ARE RECAPTURED

German Aliens Who Left Working Party at Prairie Camp Trapped By Guards

CALGARY, Oct. 28 (P).—Two German aliens, who escaped from a Prairie internment camp Thursday afternoon, literally walked into the arms of camp guards Sunday night, dramatically ending an intensive four-day hunt for them.

The men, Harold Herman Lange, thirty-one, and Richard Engel, thirty-one, were hustled back to the camp and underwent a thorough grilling from camp officers.

Major H. P. Rock, of Calgary Military District No. 12, in announcing the capture late tonight, said they were taken at an outpost—part of the broad scheme authorities had laid out to deal with escapes.

The men were spotted at the post by guards, who challenged them, then took them into custody. There was no resistance. The capture took place within five miles of the camp between 9 and 10 p.m., but the exact location was not revealed.

## DUCE WANTS GREEK BASES

Rome Admits Invasion to Secure Strategic Points To Fight Britain

ROME, Oct. 28 (P).—Premier Mussolini ordered his Fascist forces to attack Greece today in a drive for air and naval bases from which to fight Great Britain in the Mediterranean and then, after a long conference with Hitler at Florence, announced complete agreement "on all present questions."

An announcement said the Italians took action against Greece after expiration of a three-hour ultimatum, presented at 3 a.m., demanding permission to occupy strategic Greek territory for duration of the war.

From that point on Rome was silent on the manner in which its army, air force and navy followed up the ultimatum, official quarters here saying all they knew was what they heard in news reports.

Officially, the principal reasons for the drive against Greece were given as Italy's desire to protect Greek neutrality against British plans to occupy Greece's island of Crete, as well as the release of Albanians from Greek "oppressions."

The reasons followed the well-known Axis pattern of pre-invasion charges.

THE ITALIANS REASONED  
of violating their own neutrality on five points by:

1. Allowing the British fleet to use Greek ports.

2. Allowing the R.A.F. to refuel at Greek bases.

## Time Bomb Found on U.S. Ship

PANAMA, Panama, Oct. 28 (P).—Crew members of the United States troop transport Republic said tonight a time bomb was found on the ship with a time bomb had been frustrated soon after the ship left San Francisco for the canal zone.

The story, as related by the crew awaiting transit to the Atlantic here was that H. F. Dodd, master-at-arms on the Republic, which was loaded with 3,000 troops and passengers, detected a "queer smell" just out of San Francisco, and discovered a smoking box stored among other objects in the last hold.

NEW YORK, Oct. 28 (P).—A British broadcast picked up today by the Columbia Broadcasting System declared there were "anti-Italian demonstrations in Yugoslavia," and that "the revolt in Albania is taking on larger and more serious proportions. It is estimated the Italians need about 50,000 troops to keep the Albanians down."

PHNOM-PENH, Cambodia, French Indo-China, Oct. 28 (P).—The French are speeding defence preparations near the Thailand (Siam) frontier on reports of apprehension in Cambodia and Laos—border protectorates—that the Thai Government might resort to force over its twice-rejected demands for territory in Indo-China.

### MOSCOW GOES ON SHORTER RATIONS

MOSCOW, Oct. 28 (P).—Limitations on buying of bread, butter, meat, potatoes and other foodstuffs were put into force today in Moscow stores. There were no ration cards nor any formal announcement, but signs appeared warning persons that those who tried to increase their purchases by going to the same store twice in one day would be subject to fines.

### HITLER'S PICTURE SPAT ON—NOW TWENTY MORE

NEW YORK, Oct. 28 (P).—The Scandinavian wireless reported from Stockholm tonight that the Norwegian town of Harstad had been ordered to post twenty pictures of Hitler in prominent places, because young Norwegians had spat at the one picture previously displayed.

## Defeat of Hitlerism First Essential in New World Order

R. T. McKenzie, University Extension Lecturer,  
Speaks on "Origins of Present World War"—  
Responsibility On Shoulders of One Man

"CIVILIZATION depends, first of all, on the defeat of Hitlerism. But civilization also depends on our understanding the causes of this war and determining, once and for all, to put an end to the institution of war. If it requires that every member of the German race be put to the sword, let us face that prospect. If it requires the rebuilding of a new world order, we must be prepared for that also."

This was one of the statements made last night by R. T. McKenzie, of the Extension Department of the University of British Columbia, in a University Extension lecture at the Junior High School here last night on "The Origins of the Present World War."

Historians, while agreeing fairly well about the sequence of events leading up to the Great War of 1914-1918, showed wide divergence of opinion as to whether blame should be placed entirely upon Germany or apportioned elsewhere, and also as to the main causes and more fundamental factors. No such dispute was possible for reasonable and well-informed people in regard to the second Great War. As Prime Minister Chamberlain had justly declared, the responsibility of the outbreak of hostilities between Germany and Poland lay "squarely on the shoulders of one man—the German Chancellor."

**HITLER'S PHILOSOPHY**  
Those who knew Hitler's philosophy through his writings knew that he continually faced the possibility of war. But, contending the speaker, this was not enough to justify the placing of the whole responsibility on Hitler.

"The first great breaches in the peace structure were made, not by Hitler, but by his predecessors in totalitarianism, Japan, and above all, Italy," it was contended. Fascism or totalitarianism had been a disease of Western Europe for several decades. Italy was under Mussolini's fascism for more than ten years before Hitler came to power, and in the philosophy of Mussolini was duplicated almost everything in Hitler's philosophy that was belligerent, warlike and hostile to Western civilization.

"Mussolini is perhaps subtler, less crude, less frankly brutal, but he has been, none the less, a deadly threat to civilization. Only because he was a weaker nation did he not stand in the forefront," it was claimed.

**TOTALITARIANISM**  
The origin of totalitarianism, and the reason for its triumph over democracy were then discussed. Fascism wrecked the peace structure established by the victorious powers at Versailles because the League did not go far enough; because the victorious Great Powers failed to make the necessary sacrifices to make it work. America, retiring into isolation, England being reluctant to accept Continental commitments, France thinking only of her own security; and because members of the League failed to

## Great War Veterans Meet in Khaki

When members and guests of the 16th Battalion, C.E.F. Association—men who fought in the last Great War, and whose unit is perpetuated in The Canadian Scottish Regiment today—met at their annual reunion dinner in Spencer's dining-room on Saturday, by far the greater proportion of them were in khaki once more. The above picture shows a corner of the dining-room where the "old sweat" joined in an evening of reminiscences, strongly seasoned with Scottish music and traditions.

stand by the League system when it was challenged, either through lack of understanding, fear, or because of fascist sympathies.

Fascism had originated because the democratic regimes which preceded them could not secure prosperity and security for their peoples.

Because in the international sphere they could not obtain the concessions which could be obtained by force; and, in the domestic sphere, they could not handle the economic problems such as depression and unemployment which had been greatly accentuated by the dislocation caused by the war and the new economic nationalism.

The great mass of people who sought peace passionately in 1919 did not understand the mechanics of peace.

Instead of vaccination, stagnation, insecurity, and, in international affairs, meekness. Fascism offered forcefulness, aggressiveness, rigorous military organization, internal security and national strength in international affairs.

"We can, under no circumstances, return after this war, to the laissez-faire democratic state or the haphazard international co-operation and continued international anarchy. We are even now moving on to democratic collectivism, a collective peace system in which all peace-loving states will forsake their rights to full national sovereignty, build together a co-operative world community, pool their armed forces, and stand together against aggression," summarized the speaker.

Major Cuthbert Holmes, the president, was in the chair, and announced that Professor Warren, of the department of geology and geography, would be the speaker at the meeting on Monday, November 11, in place of Professor A. C. Cooke. His subject will be "Minerals and World Politics."

## GYROS HEAR OF LABOR TROUBLE

Hon. G. S. Pearson, Provincial Minister, Speaks At Club Luncheon

"Profit in business is not the paramount item in connection with any organization. The employer's responsibility to the workers makes it obligatory that he consider the employees in relation to the profit made, and that they must receive their share of it," said the Hon. George S. Pearson, Minister of Labor, at the weekly Gyro Club luncheon meeting at the Empress Hotel yesterday.

In pointing out that differences between capital and labor, or employer and employee, which have come up in the past, are for the most part entirely unnecessary. The speaker said that there has not been a case submitted to them that the Government has been unable to settle.

With his subject, "The Reasons for Intervention of the Government in Relation to Employer and Employee, and the Consequent Labor Laws and Regulations," the minister declared "there would be less intervention by the Government in labor problems if the employer and employee had a greater respect and consideration for each other."

Mr. Pearson defined the main acts that have been passed in the province that have assisted materially in providing consideration between employer and employee, including the Factories Act, the Workmen's Compensation Act, the Minimum Wage Act, the Hours of Work Act and the Industrial Conciliation and Arbitration Act.

The speaker was introduced by Percy Moir, and was thanked for his address by Gyro President Arthur Minnis.

**MAN HELD IN ROBBERY CASE**

Bulk of Funds Stolen From Jordan River Postoffice Recovered

Quick action by the Provincial Police in closing the roads around Jordan River after the theft overnight of \$400 in cash and securities from the home and office of the postmaster, C. A. Betts, led to the arrest of one man at 6:30 a.m. yesterday, who was later charged with the robbery.

The Island division of the Provincial Police said that Stanley E. Mockford had been taken into custody and charged with breaking and entering the Jordan River premises. Mockford appeared later before a stipendiary magistrate in the Provincial Police Court and was remanded until Wednesday for trial on the charge.

The police said that the greater part of the money taken from the post office, some \$300 of the \$400 missing, had already been recovered. Investigation is proceeding in the case.

**Earthquake Was Felt in City on Sunday Afternoon**

An earthquake, the epicentre of which was within 100 miles of Victoria, shook the city intermittently for four minutes at 2:29 o'clock Sunday afternoon, according to Dr. K. O. Wright, in charge of the seismograph at the Dominion Astrophysical Observatory, Saanich.

Some residents felt the tremors distinctly, while others did not notice the earth shocks. It was stated that people with homes built on rock felt the shock more sharply.

Another disturbance was recorded on Sunday night, beginning at 9:44 o'clock and continuing until 11:25. The waves were not clearly defined, but it was estimated that the centre of the disturbance was 3,700 miles from Victoria in an undetermined direction.

## From Europe Day by Day— THE TIMES, London

News and Comment on International Events selected from The Times daily and published in The Daily Colonist by special arrangement with The Vancouver Daily Province.

(Copyright, 1940, by the Southern Co.)

**LONDON, Oct. 28 (By Cable).**—Disputes in the Vichy Government as the outcome of a message from King George are announced by The Times correspondent today. The differences reached almost a breaking point over the week-end when the statement was issued indicating "agreement in principle" to collaborate with the Germans.

The struggle inside the Cabinet, however, going on and may be renewed when Laval brings back the German peace terms from Paris.

Apparently, the first peace proposal from Hitler involved submission and disintegration of the French Empire. Germany would seize Alsace-Lorraine once more. Italy would get her share of French Alpine regions and in the Mediterranean territories. Spain would have a slice of Morocco. The Japanese are expected to obtain Indo-China.

In France, the German army would occupy more territory and take over more ports and airbases. In return, France would be given back her prisoners of war, who would have to work for Germany and be promised a market for her agricultural supplies.

The Vichy Government argued for two days. Then King George sent a message to Laval, declaring the British people were determined to fight to the end for victory, and when it was won France would be free again.

The United States also warned the Vichy ministers that any transference of territory in the Western Atlantic would not be permitted. These communications led to further argument.

Meanwhile, Laval inspired a newspaper article declaring that Britain's power was waning and that a fresh Anglo-French entente would be possible for France. But collaboration with Germany, on the other hand, meant "durable security."

Laval privately thinks, says The Times, that co-operation with Germany will win Hitler's gratitude.

Finally, the Cabinet agreed to a statement which can mean anything or nothing.

The opinion in Turkey now is that Germany is doomed to defeat and that Hitler wants to present a puppet government in Europe as making a common cause against the United Kingdom and the United States. When this is achieved, another German peace offer would be forthcoming.

Spain is postponing her decision on offers made by Hitler at his meeting with Franco. Reports reaching Lisbon from Madrid suggest that if Franco lines up with the Axis powers, then peace proffers will follow.

Franco, however, continues to oppose entry into the war and is believed so to have informed the British Ambassador. The anti-British Spanish press admits that the country requires stocks of food and petrol before it can think of making war. It is believed Spain may have agreed to allow the Axis powers the use of certain of her ports in return for territory which the Falangists covet in North Africa.

The Times, editorially, says there is yet time for the French army and people of the French Empire to prevent the Petains and Laval completing the betrayal of their country to the enemy.

## LINER STILL FAST ASHORE

Efforts of Tugs to Free Coastal Steamer Alaska Fail to Budge Her

PRINCE RUPERT, Oct. 28 (CP).—The \$1,000,000 coastal steamer Alaska lay hard aground tonight, despite efforts of tugs and a coast guard cutter to pull her from the rocky reef where she crashed in the blackness of Saturday midnight with 278 passengers aboard.

The passengers, rowed ashore following the grounding and rescued from the beach by the coast steamer North Coast, were brought here. Today they resumed their interrupted journey aboard the Alaska Steamship Company's vessel Yukon, apparently none the worse for their experience.

The Yukon, sister ship of the stranded Alaska, went alongside the wrecked vessel at Elliott Bay, twenty miles south of here, to pick up personal belongings of the passengers, left aboard when they were ordered to the boats. The Yukon will proceed to Ketchikan, Alaska, with the Alaska's passengers, who will resume their journey to Seattle from there aboard other vessels.

The coast guard cutter Cyane attempted last night and again today to pull the Alaska free from the reef. But the 366-foot vessel, with a gaping five-foot hole in her stern and eight feet of water in her forward hold, could not be budged. Salvors planned to blast away the rocks holding her fast and expect to float her on a high tide Thursday or Friday.

**NO ONE INJURED**

There was no confusion aboard the Alaska as Captain O. C. Anderson ordered passengers to the boats when the ship took a twenty-degree list after the grounding. Passengers tumbled from their berths and went to the boats from the ship's lounges and bar. Many fell into water covered with oil pouring from the Alaska's holed hull, but there were no injuries other than a few bruises and sprains.

Ashore the passengers lit fires on the beach and sang songs until the North Coast arrived at the scene in answer to an SOS.

The North Coast remained at Prince Rupert on Sunday night to provide accommodation for the shipwrecked passengers, and many men gave up their staterooms to let women and children sleep.

Captain Anderson and his crew remained aboard the stranded Alaska while salvors worked to free her from the reef, where her bow is almost touching the trees fringing the shore.

## Building of Alaska Highway Rests With Joint Defence Board

Alaskan Delegate to Congress Sees No Hope At Present For International Road, Unless Needed For Emergency Purposes

WASHINGTON, Oct. 28 (CP).—A dream of transportation leaders and public men for years—an international highway from the United States through British Columbia to Alaska—seems likely to remain only a dream unless the project is adopted as a joint defence effort.

This was the prophecy regrettably made in an interview today by Anthony J. Dimond, Alaskan delegate to the House of Representatives and long an ardent advocate of the road. With all American resources concentrated upon defence, Dimond said that there is little possibility of the road being built in the near future unless it is recommended by the Canada-United States Joint Defence Board.

So far as could be learned here, the American section of the board at least does not feel the highway to be a defence necessity at the moment.

"We have just authorized expenditures of \$23,000,000, and there would be no difficulty in finding the money if there was a will to build the road," Dimond declared.

## COST OF ROAD

It has been variously estimated that the road would cost from \$15,000,000 to \$25,000,000, and alter-

native routes have been surveyed, running up through Central British Columbia in the trough between the Rocky Mountains and the coastal range.

In 1905 the Western Union Telegraph Company started construction of a line up through this district, planning to carry it across Bering Strait and Asia into Europe.

But successful laying of the Atlantic cable interrupted this project. The wires hung dead and unused. The poles stood and some still stand as guides to Indians for winter travel. They guided prospectors in the gold stamped in 1898.

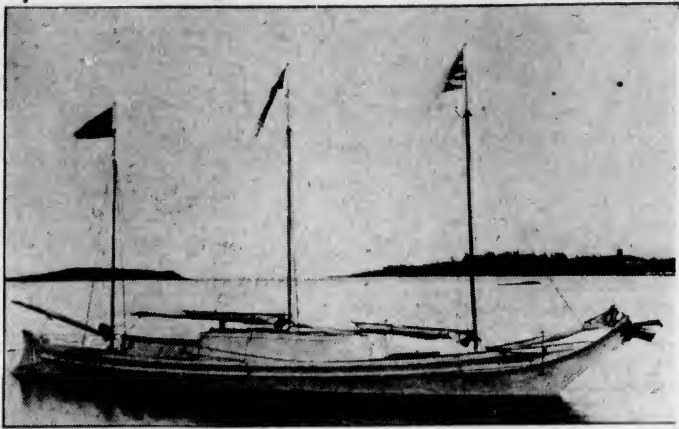

At the turn of the century, H. Harriman, railroad magnate of that day, envisioned a rail line up through British Columbia and Alaska, through a tunnel under Bering Strait and on to Asia and Europe.

Engineers found the whole colossal undertaking feasible, even to the tunnel, but the Russo-Japanese War halted operations and they were never resumed.

## FAVORED ROAD

In the last ten years, Premier T. D. Pattullo, of British Columbia, and others revived the scheme and in 1938 a joint commission was formed by Canada and the United States to

## Tilikum Rigged for Long Ocean Voyage

Built by Cowichan Indians, the dugout canoe which was secured by Captain J. C. Voss, who raised the freeboard and decked the craft over, made one of the most adventurous voyages in the history of seafaring ever accomplished. The old vessel will shortly be moved to the Indian Village, Douglas and Belleville Streets, where it will continue to be on exhibition.

## SELECT SPOT FOR TILIKUM

Canoe Which Sailed Around World Will Rest in Indian Village

Victorians and others who are interested in sailors and their exploits on the seven seas will undoubtedly be glad to learn that the Tilikum, the decked-over Vancouver Island Indian canoe which Captain J. C. Voss, a former resident of Victoria, sailed round the world, will shortly be placed in a location where visitors to the city can view it in surroundings somewhat in keeping with its earlier history.

Through the efforts of Captain A. Goring, skipper of the Thermopylae Club and other members of the local ship lover's association, in co-operation with George I. Warren, of the Victoria and Island Publicity Bureau, a final resting place has been found for the old craft at the southwest corner of the Indian village which the Provincial Government is having constructed at Douglas and Belleville Streets.

There the little vessel which braved the world's biggest ocean will be kept in good repair and be a visual reminder to citizens and strangers of what a hallowed log of wood in the hands of a seasoned seafarer can accomplish successfully.

The Tilikum was originally an ordinary dugout of the type common to Vancouver Island waters when Captain Voss acquired it for the express purpose of navigating it around the world. Voss believed the finely-carved canoe of North Pacific Coast Indians to be unequalled as a seaboat anywhere and wanted to put his belief to the test. He had seen Indian seal hunters handling them in all kinds of weather and had long conceived the idea of securing one, building up its sides a bit to provide head-room under a deck covering which could be necessary to keep clothing and provisions dry during a long sea voyage.

Accompanied by a Winnipeg newspaperman, Norman Luxton, Voss finally left Victoria and headed for the latitudes of the trade winds and fair sailing weather. Visiting various South Sea Islands, the Tilikum skipper brought her into Apia, Samoa, where Luxton parted company with Voss. Voss continued, losing a native of Samoa overboard in a storm, and reached Australia alone. He exhibited the Tilikum in the Southern Hemisphere, at times loading it on flat cars and taking it inland to show far-from-the-sea Australians the manner of ship he was touring the world in.

Passing through numerous adventures, the Tilikum finally sailed into the Atlantic, crossed it at the narrowest part between the west coast of Africa and the east coast of South America, so as to be able to say he sailed the full distance round the world, and then headed for the English Channel and London.

Voss received much publicity in the British Isles, did a lot of lecturing, exhibited the Tilikum, and was made a Fellow of the Royal Geographic Society. Eventually the Tilikum came into the possession of a Thames yachtsman; but falling into disrepair was left on a river mudbank, where someone, knowing the craft's history, saw it and notified friends in Victoria, who sought means of bringing it back to the point from which the long voyage started.

The publicity bureau was an active agent in the effort to retrieve the Tilikum, so was Harry Barnes, Victoria yachtsman, and King Brothers, agents for the Furness Line, got its company to transport the old hull from London to Victoria. When it arrived, it was a sorry sight, showing the effects of neglectful years. A resting place was found for it, after some repairs were made, on the Crystal Garden property, where later it was put in exhibition shape by the Thermopylae Club.

## BRITAIN WAS LUXURY SHIP

Bombed Empress Liner Rated One of World's Greatest Vessels

MONTREAL, Oct. 28 (CP).—The Empress of Britain, whose loss was announced today by the British Admiralty, was the flagship of the Canadian Pacific Steamships Company fleet.

The \$15,500,000 Empress, rated as one of the world's ten largest vessels, was commissioned by the British Admiralty shortly after the outbreak of war and helped transport part of the first Canadian troops to the United Kingdom.

Her last commercial voyage was made just after the war declaration, when she journeyed from Southampton to Quebec with thousands of Canadian and United States citizens seeking haven from the war zones.

For a time she remained in Canadian ports, being painted and camouflaged. Then, suddenly, she slipped out of port in the early dawn, her destination unknown.

CARRYING TROOPS

Later, the Empress was reported at Sydney, Australia, with the Mauretania, the Queen Mary, the Aquitania and the Empress of Canada and Asia. All were believed engaged in carrying Australian and Zealand troops.

Among the notable trips of the 42,346-ton liner was the journey back to England last year with the King and Queen after their visit to Canada and the United States. For this journey her commander, Capt. C. H. Sapeworth, was made a member of the Victorian Order.

TEN YEARS OLD

The Empress of Britain was launched in June, 1930, when she was christened by the Prince of Wales, now the Duke of Windsor. Her maiden voyage in 1931 was from Southampton to Quebec. That was her summer peacetime run. In winter, she went on world cruises.

With a normal speed of twenty-four knots, the Empress held what is known as the land-to-land record—from Bishop's Rock to Belle Isle. In her early days at sea, the Empress made the trip in just more than three days.

The Empress of Britain's overall length was 760 feet.

## NEW SCHOOL OF FLYING OPENED

Ceremony at Calgary Training Centre Included Men From "Down Under"

CALGARY, Oct. 28 (CP).—The No. 3 Service Flying Training School of the Empire Commonwealth Air Training Scheme was officially opened at Currie Barracks Airport today by Air Commodore A. T. N. Cowley.

After the official opening ceremonies, the whole wing, including a detachment of Australians and New Zealanders, marched past the saluting base in column of route headed by Wing Commander A. E. Ross, officer commanding the station.

Later on, visitors were treated to an exhibition of formation flying and acrobatics by pilot officers of the wing.

On the parade ground fronting the main hangar, the wing was drawn up in review order, the visiting Australians and New Zealanders occupying a place of honor in the centre of the square.

After taking the salute, Air Commodore Cowley officially declared the new Service Flying Training School—one of the largest in the Dominion of Canada—officially opened. He extended a warm welcome to the men from Canada's sister Dominions.

The air commodore said the Calgary school was the first to be opened in the command which extends from Regina to the Pacific Coast, and he was sure it would uphold the grand record of the Royal Canadian Air Force.

He warned the young flyers against becoming over-enthusiastic and over-ambitious in the handling of the machines.

Lieutenant-Governor J. C. Bowen welcomed the pilots to Alberta.

## TELLS TALE OF NOOTKA AFFAIR

**B. A. McKelvie Gives Re-  
sume of Island Story  
That Rocked Europe**

Taking "The Nootka Affair" as the subject for his presidential address at the annual meeting of the Victoria Branch of the British Columbia Historical Association, held in the Provincial Library last night, Bruce A. McKelvie, well-known Island writer and historical authority, gave an interesting resume of the incidents that for a time threatened to invoke a world war.

By fitting coincidence, it was exactly 150 years to a day, October 28, 1790, to be precise, since the Nootka Convention was signed at Madrid, ending the controversy that embroiled the Pacific Northwest.

Mr. McKelvie traced the gradual interest shown in the Pacific Coast by successive Spanish and English rulers some centuries ago, and the development of trade rivalry between Spanish, British and American sea captains, which culminated in disputes over Nootka territory and the imprisonment of British officers and crew.

**DIPLOMATIC ACTIONS**  
He depicted with apt allusion and quotation the diplomatic actions that nearly flared to war between Spain and England, with the possibility of the new United States being involved, and the final settlement of the quarrel that Vancouver Island had raised in European chancelleries.

The secretary, Mrs. M. R. Cree, submitting her sixth annual successive report, gave an outline of the branch's activities during the year and the various lectures heard at meetings. Other reports included: Treasurer, Miss Wolfenden; secretary, Mrs. George Phillips; his-

While planes cruised protectively in rainy skies overhead, Mussolini and Hitler talked for more than two hours amidst the splendours of the fourteenth-century Florentine Palazzo Vecchio.

A communique after the meeting said merely their conversations took place "in the spirit of the alliance between the two countries, developed as always in the most cordial form and show a complete identity of views on all present questions."

Some foreign observers believed it likely Hitler came primarily to induce his ally to scale down demands on France to the terms of the proposed German-French settlement.

## New Hostess House Opened

NANAIMO, Oct. 28.—Traffic was halted on Friday afternoon and citizens of Nanaimo lined both sides of Commercial Street, the main business thoroughfare, to witness a brief ceremony in connection with the official opening of the Reginald Hostess House in the Pimbury Block. Five hundred members of the South Alberta Regiment, encamped at Wakesiah Camp, were assembled in front of the building for the ceremony.

"On behalf of the South Alberta Regiment, I place the clubrooms in the care of our women of the garrison, city of Nanaimo, and declare them formally open," R.S.M. Chris Seal said as he unveiled the regiment's crest above the entrance.

The massed soldier guard of honor, bearing evidence of the intensive training they have experienced during the past four months, marched away to strains of their bugle band.

Invited guests, including Mayor V. B. Harrison and the heads of patriotic societies and service clubs, attended a reception in the nine-room "club apartment." The Hostess House committee, assisted by the women's auxiliary of the regiment, served refreshments. Mrs. J. H. Carvoso, wife of Colonel Carvoso, M.C. and bar, attended as honorary president of the auxiliary, and Mrs. G. A. Campbell, president of the women's auxiliary, received. Others assisting were Mrs. Howard Wright, Mrs. J. O. Hunter, Mrs. J. A. McLean, Mrs. A. Hausfay, Mrs. Grant, Mrs. Bolton, Mrs. Larsen and Mrs. Bullen.

## Clubs-Societies

**King's Daughters**  
The King's Daughters' Restroom, Hibben-Bone Building, Government Street, had 1,567 patrons during the twenty-four days the premises were open last month. It was reported at the district meeting of the order held yesterday afternoon, Mrs. A. M. Perry, who presided, reported concerning the executive meeting held in Vancouver last Saturday, bringing the news that H.R.H. Princess Alice, wife of Canada's Governor-General, had very graciously consented to become president of the

national organization. She also reported that the King's Daughters' Hospital, Duncan, had been able to present a much more satisfactory statement than for some time; that a new circle had been formed in New Westminster, entitled Princess Elizabeth Circle, and that \$277 had been sent from British Columbia to the Canton Red Cross. The meeting received with regret the resignation of Miss E. Gill, the secretary, and Miss M. Pies, treasurer. At the Vancouver meeting a citation for fifty years' membership was given to Miss M. E. Wilson, of Duncan. The various circle reports were given, one circle reporting that it was working for the orphanage, and another that two layettes had been given to the Royal Jubilee Hospital during the past month. All circles were shown to be busy with war work of some kind. The King's Daughters will hold a big Christmas sale in the rooms on Saturday, December 7. In addition to the various stalls of needlework, candy, novelties, etc., tea will be served.

## RED CROSS

### GANGES UNIT

Lieutenant-Colonel R. S. Worsley, honorary secretary at Victoria Red Cross headquarters, and Mrs. Archibald visited Salt Spring Island last week to meet the committee of the Ganges-Red Cross unit at Ganges. After giving an interesting talk on the work of the Red Cross, the visitors stated what articles were especially required by the organization and showed samples of clothing and other things wanted. A drive will take place for Red Cross funds in the Ganges district between November 4 and 11. An appeal for afghans and knitted belts, among other articles, is being made for refugees and another, for new material and clothing for the evacuees, is also being made; for this purpose a material shower will be held on Thursday, November 14, at the Log Cabin, kindly lent by Mrs. Patterson. Any materials suitable for children's clothing will be most acceptable, and the committee will also be glad to receive any small pieces of cloth or remnants, which could be used for trimming.

TEST DIET FOR FOOD ALLERGY OR SENSITIVENESS

There are some individuals who can eat the white of an egg but not the yolk because the yolk is almost solid fat, while others cannot eat the white because it is a protein food, but can eat the yolk without any symptoms arising.

This condition of being sensitive to various substances is called an allergic condition, and a new specialty in medicine which treats these allergic conditions is called allergy. These specialists are called allergists.

One of the ways of finding if individuals are allergic to certain foods, in that these foods cause upsets of the stomach and intestine, is by means of test diets.

I have spoken before of the great amount of research work done by Dr. Walter Alvarez on food allergy. Some new findings are reported by Dr. William Linton, Long Island College of Medicine, in The Gastroenterology (stomach and intestine) Review. His method is to ask the patient to name not only which foods disagree with him, but various members of the different food groups; for instance, under dairy foods distinguish milk, cream, butter, cheese. The patient may be able to eat the white of an egg without discomfort, but the yolk will cause distress. Some will say that everything disagrees with them.

The suggestion is that these "allergic" patients be placed on a few simple foods which experience has proven produce the smallest amount of distress or allergic symptoms. Such foods are: rice in all forms, cooked or canned; fruits and vegetables (like spinach, asparagus, carrots). The best meats are lamb and chicken. Others which help in making an all round diet are sugar, honey, lemonade and olive oil. If at the end of a week on such a diet all symptoms disappear the problem as to the cause of the allergic symptoms is solved. Every two days from then on one new food is added to the list. If a new food causes symptoms, it should be avoided and another tried. The patient keeps a diary and learns which foods cause symptoms and which do not.

If, however, symptoms persist after the week on the trial diet, one item of the suspected food is avoided every two days until symptoms disappear.

The foods found by Dr. Linton to give the most difficulties are, in their order of difficulty, cabbage, cucumber, cauliflower, milk, eggs, apples, bananas, oranges, fish, potatoes, chocolate, nuts, celery and wheat.

## FORM WAR CORPS FOR WOMEN HERE

Automobile Association Women's Ambulance Unit is Here

Receiving a complete training equipping them to serve in many vital capacities that will assist the Dominion in time of war, over 700 Vancouver women are undergoing a rigorous and thorough course of instruction, as members of the British Columbia Automobile Association Women's Ambulance Corps.

All applicants are being picked with extreme care, only the 700 being eligible for the course, out of some 1100 applications received by the officials. To complete the quota of one thousand possible membership, the organization will open its lists to volunteers in Victoria within the next few weeks.

Receiving instruction in anti-gas work, A.R.P. work, St. John Ambulance first aid work, home and field nursing, map reading, drilling and firearm handling, the corps will as well have a special section devoted to signalling work.

In addition to the 700 members in Vancouver, the corps, under the command of Major Sam Woodie, has a membership of some one hundred workers in Nanaimo at the present time.

SPECIAL UNIFORM

A special uniform has been designed for the Ambulance Corps. Of a navy blue color, it is made of an officer-style coat, and collarette, topped off with a Glangery-style cap for the rank and file, while the officers wear a peaked cap.

A course of instruction is offered those who wish to qualify for the post of instructor, and all promotions in the organization are based solely on merit.

Enlistment in the corps is open to all members of the B.C. Automobile Association, the membership fee of which entitles the member to the course of instruction and her uniform.

It is expected that plans for opening a recruiting office in Victoria will be completed within the next few days.

## GIBRALTAR IS EQUIPPED TO STAND SIEGE

Noted Arabian Explorer Says Famous Rock Stiff With Armaments

SPAIN HAMPERED BY MANY DIFFICULTIES

Gibraltar is stiff with guns, honey-combed with galleries, moated and mined on its land side, and has food enough to withstand a ten-year siege, Dr. Bertram Thomas, O.B.E., distinguished English explorer and author, told the Men's Canadian Club at a luncheon meeting in the Empress Hotel here yesterday.

Dr. Thomas was living in Morocco until recently and talked with many officers and men of the Gibraltar garrison when they crossed the straits on leave at various times, and said he "never met anyone who thought that an enemy attempt on the rock would meet with anything but a good wallowing."

The noted Arabian explorer spoke on the subject of "The Situation in the Western Mediterranean," and from the background of his three-year stay in Morocco and his knowledge of the Arabian people, gave his audience an outline of recent happenings there and their effect on British war operations.

He described the nature of the country and the population of fair and dark Moors, explaining the development and creation of the three political zones of control, French, Spanish and international.

FRENCH HUMILIATED

When France collapsed, he was at Casablanca, and found French soldiers and soldiers who had arrived at that port humiliated and crushed by the capitulation. Many of them volunteered for service with the British Navy.

After the arrival of the Italian-German commission and the Battle of Oran, Dr. Thomas watched the French planes that set out to bomb Gibraltar, and said that "it was to the honor of these French pilots that they deliberately dropped their bombs short of their targets."

Spain now has control of the international zone, he pointed out, and declared the only feature of the present situation as it affected Britain was that the present regime of Spain gained power through the help of Germany and Italy, and it was logical to suppose that it considered its preservation bound up with those countries.

Against the likelihood of Spanish intervention on the side of the Rome-Berlin axis, he listed the impoverishment of the country caused by the civil war, the Roman Catholics, the monarchists, the leftists, and the poor roads and bridges, which were inadequate for war purposes. While not claiming to be a military strategist, Dr. Thomas said he would be very surprised if a frontal land attack was made on Gibraltar.

MOORS ARE REALISTS

The Moorish population of Morocco and the whole Arab race definitely sympathized with the Allies, he said, but added that the Moors are realistic, and live up to their proverb: "Better kiss the hand you cannot strike off."

"So long as the navy remains intact and the citadel of Gibraltar is held, there is no question of the enemy using the straits, and we believe Gibraltar to be impregnable. Certainly the boys there have their chin up," Dr. Thomas declared.

The explorer, who is speaking to Canadian Clubs across the Dominion, will also address the Women's Canadian Club at the Empress Hotel today, and will visit Duncan, Nanaimo and Alberni during this week.

C.C.F. PROTESTS

Vancouver Island Clubs

Conference Adopts Number of Resolutions

Protest against the prosecution of individuals and groups in possession of political and economic literature, "where the literature does not advocate collaboration with the enemy," was made in a resolution passed during the Island conference of C.C.F. clubs held here Sunday.

Referring particularly to recent arrests in Saanich, Oak Bay and Victoria, and to the "New Age Book Shop Case" in Vancouver, the resolution petitions the Dominion Government "to cease the use of the R.C.M.P. in a political capacity for the suppression of critics of the actions of the Canadian Government, as political police have no place in a democracy and are found only in countries where some form of dictatorship exists."

A four-point resolution adopted after a discussion on foreign policy led by Harrison Brown, Comox, called on the Canadian Government to "do its utmost to support those progressive elements in beleaguered Britain who are demanding:

1. A complete embargo against Japan. 2. Immediate cessation of coercion in India and an unconditional offer of national independence. 3. The supplementing of the struggle in the military field by influencing into the democratic cause the revolutionary impulse towards

independent socialized democracy in contradistinction to the enslavement of all European peoples which is offered by the Fascists, this with especial reference to the increased use of proven and experienced anti-Fascists as advisers." 4. The immediate dismissal of Lord Halifax, Sir Samuel Hoare and Sir Robert Craigie because they have been connected with the policy of appeasement.

Another resolution urges the im-

position of a 100 per cent excess profits tax and the nationalization of all war industries.

RIGHTS ENVOYED ON

Setting forth that "the fundamental rights of the individual are being daily encroached upon by orders in council to a far greater extent than elsewhere in the Empire," another resolution urged the National C.C.F. Council "to collect all possible data regarding individual cases and to instruct our M.P.s

to make insistent and incessant representation that the Government fall in line with that of Britain and immediately reverse the present policy of repression."

Sessions of the conference were held at 27 Boyd Street, James Bay, and other matters considered included organization plans for the next provincial election and educational programmes. Mrs. P. Raymond and Ronald Grantham led the discussions.

## Many Victoria Boys In Lost Ship's Crew

As in the sinking by collision of H.M.C.S. Fraser, so in the loss of the destroyer that replaced her, H.M.C.S. Margaree, sunk by the same cause, Victoria homes made their contribution of young sailor heroes who gave their lives on naval occasions, in the hazardous duty of protecting Britain's sea lanes.

H.M.C.S. Margaree, seasoned fighter in the fleet of the Royal Navy, but young in service for Canada, took with her to the bottom of the sea, somewhere in the North Atlantic, well over a score of lads, who were born here, schooled here, and entered the Royal Canadian Navy at Esquimalt.

Some had seen years of service afloat; many had survived the sinking of the Fraser, only to return to sea in the ill-fated destroyer in which they gave their lives for their country. One had been decorated by the King only two short weeks ago with the Order of the British Empire for conspicuous bravery in saving the lives of shipmates in the Fraser.

The official casualty list issued from Ottawa named some twenty-five men and boys whose next of kin live in Greater Victoria, but many more of Victoria's sons lost their lives in the disaster, their names appearing chiefly in the listing for Halifax, where their wives had gone to live after the outbreak of war.

### VICTORIA VICTIMS

Victoria victims of the sinking of the Margaree, and others known to have lived here, are named in the list given below.

**Electrician Artificer Alfred W. "Bud" Aymes**, who joined the navy in June, 1939, was twenty-seven years of age. He was born at Jordan River and received his education in that town and at Tolmie School in Bannockburn. The son of Mr. and Mrs. A. Aymes, 2515 Government Street, he married the former Margaret Nelligan nine months ago. His widow resides at 945 Cloverdale Avenue. He is also survived by two sisters, Mrs. Nellie Cooke and Miss Elsie Aymes, at the family residence. EA Aymes learned his trade at the Ramsay Machine Shop here and had been employed with the Nootka Packing Company on the West Coast. He had been a Diesel engineer before joining the navy. After six months' training at Esquimalt, he went overseas.

**PO George Archer** was another Victoria sailor to escape injury in the sinking of the Fraser. His home was at 538 Lamson Street, where his wife and seven-year-old daughter are living. PO Archer was born in Lancashire thirty-five years ago and joined the Royal Navy twenty years ago. He came to Victoria in 1930, transferring to the Royal Canadian Navy.

**AB Thomas Morley Baker**, aged twenty years, was the son of Mr. and Mrs. Harry F. Baker, 2355 Heron Street. One brother, Herbert, aged thirteen years, is at the family home. AB Baker was born in Tarrington, Sask., and came to Victoria with his parents six years ago. He was serving aboard H.M.C.S. Fraser when she sank.

**John Henry Burnett**, twenty, was a second-class stoker. He was born in Victoria and educated at Esquimalt school. He joined the navy in July, 1938, and was aboard the Fraser when that vessel sank in a collision off the coast of France. His mother, Mrs. J. Burnett, two brothers and one sister survive.

**Acting LS Victor Edward Carter**, twenty-one, was a Victoria boy. He joined the Royal Canadian Navy six years ago and had served in H.M.C.S. Skeena and Restigouche. His chum, AB Francis Millan, who was also lost in the Margaree, served with him in the Skeena and Restigouche. Acting LS Carter was educated at Craigflower School. He is survived by his wife, at 721 Admirals Road; his mother and father, in Vancouver; three brothers, Edgar, Ronnie and Bob, all with the Royal Canadian Navy, and his sister, Mrs. H. Clark, 1010 Empress Avenue.

**Telegrapher Ralph L. Clarke**, who came of an old pioneer family of Victoria, was married only two and a half months ago in England, where his wife is living. He was the son of R. L. Clarke, Refuge Cove, V.I., and Mrs. J. E. Hamilton, Victoria, and grandson of Mrs. W. H. Clarke, 1154 Hillside Avenue. Telegrapher Clarke, who was twenty years of age, was born in Edmonton, but came here with his parents at the age of one year, receiving his education at Quadra Street School and Victoria High School. For four years he was an enthusiastic member of the Rainbow Sea Cadets and entered the Canadian Navy here four years ago. He was seriously injured in the sinking of H.M.C.S. Fraser and had not long been discharged from hospital when he joined the Margaree. Besides his father and mother, he leaves two sisters, Miss Betty Clarke, Victoria, and Miss Shellagh Gail Clarke, Refuge Cove. He took his early naval training at Portsmouth and returned to Victoria aboard the destroyer Ottawa.

**CPO Alan Creighton Crane** is the son of Mr. and Mrs. Arthur Crane, 1087 Lyall Street. Twenty-four years of age, he was born in Victoria and educated at St. Michael's School and Oak Bay High School. He joined the Royal Canadian Navy in July, 1938, and for some months served in H.M.S. York, joining the British naval vessel when she visited Esquimalt. CPO Crane is one of the survivors of H.M.C.S. Fraser, having been rescued after being in the water for some hours. He is unmarried. He has three sisters here.

**PO Harold W. (Carly) Corbin**, thirty, was born in Prince Rupert and had been in the Royal Canadian Navy for the last eleven years. He had been stationed at Esquimalt up to a year ago. He made three trips to England and gave service on the Canadian destroyers Ottawa, Vancouver and Skeena. He was last on the H.M.C.S. Ottawa prior to his

transfer to the H.M.C.S. Margaree. He was a member of the navy Rugby team for several seasons and last May 24 celebration was coxswain during navy boat races here. His wife resides at the family residence, 965 Burnside Road. He leaves a daughter, Yvonne Evelyn, three, and a baby son four months. PO Corbin's mother lives at Kamloops with his brothers, Wesley, Allen and Merel, and sisters, Fern and Arlene. Another sister, Mrs. Kenneth Clarke, resides at Vancouver.

**Stanley Gordon Day**, twenty-one, leading victualling assistant, was born and educated in Victoria. He joined the navy three years ago and was a star basketball player for the navy team. He is survived by a widow and a two-week-old baby girl. He married Miss Eileen Peden, daughter of Thomas Peden.

**OS David George Frankham**, eighteen, was born in Victoria and attended Lamson Street School. He was a prominent junior lacrosse player before joining the navy two years ago. He was a survivor of the Fraser sinking. Surviving are his parents, Mr. and Mrs. C. F. Frankham, three brothers and three sisters. He resided at 507 Head Street.

**AB Raymond Harold Fuller**, twenty-one, was the son of Mr. and Mrs. J. E. Fuller, of Victoria. He was born here and attended the Boys' Central and Victoria High Schools. AB Fuller was prominent in football, basketball and softball circles before joining the navy here in September, 1938. He was a grandson of Rev. John Robson, well-known local Methodist minister. He was in the Fraser when she sank, but escaped uninjured. Besides his parents, he is survived by two brothers and two sisters, Arthur, in the Ordnance Corps, Vancouver, and Lorne, at Victoria College, and Moses Edna and Elaine Fuller, Victoria.

**Leading Cook Arthur George Holloway**, twenty-five, was a son of Mr. and Mrs. A. G. Holloway, 214 Russell Street, and his wife, now living in Halifax, is the former Miss Dora Daniel, 911 Dunn Avenue. He was born in Edmonton and came here with his parents fifteen years ago, receiving his education at Boys' Central and Victoria West Schools. He joined the navy here three years ago, and survived the sinking of the Fraser. A sister, Mrs. Lula Gibbons, lives in Victoria.

**CPO James (Jimmie) Kelly**, twenty-eight-year-old son of Mr. and Mrs. J. O. Kelly, Burnside Road, was born in Victoria. He was slightly injured during the H.M.C.S. Fraser sinking, which necessitated hospital treatment in England for several weeks. He was educated at Victoria West and Victoria High Schools. His only sister, Mrs. Frank Taylor, resides at 964 Wollaston Street.

**Engine Room Artificer Thomas Henry Lamb** is the son of Mr. and Mrs. F. Lamb, Snowdrop Avenue, Marigold. He was born twenty-three years ago in Yorkshire, England, and arrived in Canada with his parents in 1919. After residing at Edmonton for seventeen years,

**NEW LIGHTING IS FEATURED**

In planning the new premises of Hickman Tye Hardware Company, Ltd., now occupied on Quadra and View Streets, no detail has been spared to create a store that is a credit to the business it houses. The

interior is well finished in every respect. Four floors are to be found, the main floor being given over to display while the others hold offices and storage rooms.

In the main floor one of the outstanding features is the lighting arrangement. Overhead is some forty feet of fluorescent lighting strip, one of the longest in the city; while to the sides are semi-indirect fixtures, giving a soft, no glare effect. The color scheme is light, imparting an airy, attractive finish. Underfoot

is the fibre tile flooring in a color scheme of green, red and black. The store is equipped with the latest type of gas heating, thermostatically controlled, which insures comfortable warmth no matter what the temperature outside.

VANCOUVER, Oct. 28 (CP)—Thieves who jimmied the front door of a downtown coffee shop during the week-end escaped with \$400 worth of cigarettes and \$80 cash, according to a report to police today.

# Pioneer Firm Moves to Larger Premises

## FIRM OF HICKMAN TYE ESTABLISHED HERE MANY YEARS

Hardware Business Served Pioneers in Gold Rush Days—Progressive Policy and Consistent Quality Have Built the Firm Through Good Will

EIGHTY-TWO years ago, when Victoria was little more than a settlement, the firm of Hickman Tye Hardware was founded. Now, the same company, though grown out of all recognition from the little store that was opened to supply the needs of pioneer settlers, moves to new premises at 1211 Quadra Street, between Yates and View Street.

The history of the firm is inseparably linked with that of the growth of Victoria and British Columbia. During the picturesque days of the gold mining fever, the rush to the Caribou, the Leech River boom and later the strike of '98, Victoria was the purchasing headquarters for British Columbia. Miners' supplies, items never thought of these days, gold pans and dust scales, all were commonplace sales for the early days of the firm.

As more modern times came along the unfailing policy of the firm, that of highest quality and instant meeting of the public needs bore fruit. An ever expanding business which has developed with the changing years has now achieved such proportions as to make this move from the old locality at 544-46 Yates Street imperative.

Mills, mines, logging camps, ships and industrial firms throughout the Province have for years relied upon Hickman Tye Hardware Company, Ltd., quality of merchandise in all lines handled. Owned and operated by local capital with directors who are resident in the city, the concern is one that is essentially Victorian.

The commodious new store embraces four floors with an area of 33,000 square feet of store surface. The building is laid out in the shape of an "L," thus giving entrances on both Quadra and View. Every detail has been planned with the aim of

### CIGARETTES SENT TO MEN BY PENSIONERS

The chaplain to this hospital recently wrote expressing appreciation of cigarettes previously sent him for distribution to Canadian casualties.

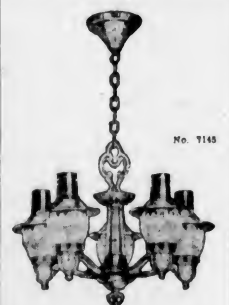

It was also decided to make a contribution of \$25 to the Lord Mayor's fund.

COLUMBUS, Ohio, Oct. 28 (AP).—A little white cylinder today stirred up a formal protest that Cornell's Carl Snavely directed play of his football team from the bench against Ohio State Saturday.

Ohio State's athletic director, L. W. St. John, charged that Snavely's manipulations of the cylinder signalled the quarter-back what plays to call as Cornell rolled over the Buckeyes, 21-7, in their game at Ithaca, N.Y.

The protest, citing Snavely for "a gross violation of the official foot-

## Charlie Conacher Paces Amerks to Win Over Rangers

Scores Two Markers in Club's 3-2 Decision Over  
Rangers in Exhibition Hockey Fixture—  
Hextall and L. Patrick Register For  
Losers—Play Again Tomorrow

WINNIPEG, Oct. 28 (CP).—Big Charlie Conacher nonchalantly scored two late first-period goals here tonight to lead New York Americans to a 3-2 triumph over the Rangers, their intra-city rivals of the National Hockey League, and send them ahead for the first time in pre-season exhibition series.

Previously each team had won twice. They continue with a game at Port William on Wednesday.

Conacher tallied his first counter after Leftwinger Tommy Anderson had tallied the game's opening goal on a three-way play with Murray Armstrong and Lorne Carr just before the game's first change of forward line.

The big defenceman broke away from one of the power plays the Rangers sometimes stage when they are short-handed, took Anderson's pass and beat Goalie Dave Kerr from close in on the left wing. The teams were even when he flipped in his second.

Both Ranger goals came in the second period while Conacher and the rookie line of Allen, Wyckley and Billy Benson, of the Americans, were on the ice. Bryan Hextall drilled one past Earl Robertson from ten feet out and Lynn Patrick got the other after slick-handling through the American defence.

Americans easily had the best of the play during the first period, but mid-way through the second the Rangers played started to click and it was Robertson who saved them time and again during the late minutes of play.

Line-ups  
Rangers—Kerr; Coulter, Pratt; M. Colville; N. Colville, Elhikky, Suba; Heiler, L. Patrick, Watson, M. Patrick, Smith, Hextall, Macdonald.  
Americans—Robertson; Conacher, Siobodan; Armstrong; Carr, Anderson; Bell, Ryan, Field, Bell, Jackson, O'Flaherty, Allen, Benson, Wyckley.

Officials—Lorne Lyndon and Stan Swain.

Summary

First Period—1, Americans, Anderson (Armstrong-Carr), 3:37; 2, Americans, Conacher (Anderson), 11:35; 3, Americans, Conacher (Allen-Wyckley), 16:22. Penalty: M. Patrick.

Second Period—4, Rangers, Hextall (Watson-Pratt), 7:35; 5, Rangers, L. Patrick (Smith), 16:20. Penalty: Bell, Pratt.

Third Period—No score. Penalties: Siobodan, M. Colville.

SCRIPPER STARS  
ST. CATHARINES, Ont., Oct. 28 (CP).—Dave (Sweeney) Schriener, of Calgary, was the standout performer as Toronto Maple Leafs went through two stiff workouts today on the eve of break camp.

Schriener, who never quite struck his true form last season after coming from New York Americans, has been moved from left wing to centre, and the transfer seems to have paid dividends.

Leafs leave tomorrow to begin a three-game exhibition series before they open the National Hockey League season against New York Rangers, Saturday.

It is on these three games that the final decision as to who will get the Leaf berth will be made. The Leaf camp will be divided for a game at Brantford, Tuesday night; and Wednesday they will play three amateur clubs one twenty-minute period each.

The annual pre-season charity game will be put on at Toronto, Thursday night.

Giesler told the district attorney he believed the disclosures made so far "only scratched the surface."

### BOB BURNS NOW AT THE DOMINION

Comedian Plays His Famous Banzooka in "Alias the Deacon," Opening Today

Bob Burns and his famous banzooka are back on the screen again in the new Universal comedy, "Alias the Deacon," which opens today at the Dominion Theatre.

The homely philosophy and the stories of his kink that have made Burns unique among screen comedians are used to full advantage in his current role, which finds him as a carnival card sharp who uses his wiles to benefit a group of deserving people.

Mischa Auer portrays a featured part that is likewise typical of his own brand of volatile humor, and with Burns he creates comedy situations that set a new high on the screen.

**ATLAS** "I Love You Again," which is now showing at the Atlas Theatre, is a fast-moving comedy of the twentieth century, dealing with a man who suddenly recovers from an eight-year attack of amnesia to discover that he has acquired a new reputation, a wife, a bank account and a pottery works.

**CADET** Bringing Canadian film-theatre goes another amazing proof that lives of great men are inspirational, dramatic, human and entertaining. "Edison, the Man," began a three-day run at the Cadet Theatre yesterday. Here is a real-life picture that is as true as a document yet as exciting as a fictionist's dream.

**CAPITOL** Errol Flynn, swash-buckling hero of so at the Capitol Theatre, has his most glorious adventures, has his most glorious

role in "The Sea Hawk." Warner Bros. thrilling new saga of the seven seas, which is now showing at the Capitol Theatre.

**OAK BAY** Something always happens to Garbo when she starts a new picture. Her latest adventure was studying how to sway with Melvyn Douglas to swing music for the first time in her career. This was in the night-club sequence of "Ninotchka," now featured at the Oak Bay Theatre.

**PLAZA** A typical London street theatre was reconstructed for scenes in Columbia's "Twenty-One Days Together," which stars Vivien Leigh, Laurence Olivier and Leslie Banks at the Plaza Theatre. In addition, Director Basil Dean employed as "extras" the peddlers and shopkeepers and residents of his actual model in order to make his film realistic.

**RIO** Roy Del Ruth, one of Hollywood's leading directors, lends his deft touch to a mile-a-minute romantic comedy in "The Married His Wife," the 30th Century-Fox film co-starring Joel McCrea and Nancy Kelly, at the Rio Theatre.

## Stumbling Mart Steadies at End On Wall Street

NEW YORK, Oct. 28 (AP)—The stock market stumbled over foreign news today but steadied in the closing hour.

After a downward drift during the greater part of the session, a little buying support came in at the last and initial losses running to a point or more were reduced. An assortment of modest gains also was in evidence.

The early relapse was accompanied by any real selling and activity dwindled from the opening until the concluding period, when there was a slight pickup.

The Associated Press average of fifty issues was off 62 of a point at 44.8. Transfers amounted to 470,660 shares, compared with 518,600 last Friday.

An officially estimated jump in this week's steel mill operations to another new top since the American Iron & Steel Institute began publication of the figures added earlier soft steel shares. United States Steel, Bethlehem, Republic and Youngstown Sheet ended only a trifle under and Jones & Laughlin Preferred held an advance of 4 points.

Sears Roebuck responded to an extra dividend declaration of \$1.25, on top of the regular 75c payment, with a gain of 3-4 at 78-3/4.

The same extra was paid last December. Improvement was retained by American Telephone, Goodyear, National Acm, Texas Corporation, Phelps Dodge, International Harvester, Woolworth, American Can and Air Reduction.

On the offside were United States Rubber, Chrysler, General Motors, Allied Chemical, Johns-Manville, Anaconda, Kennecott, Santa Fe, Great Northern, Westinghouse, Dow Chemical, Du Pont, Western Union, General Electric, Douglas Aircraft and Montgomery Ward.

Bond market losses were mostly small today and numerous firm spots were in evidence at the close. Greek Government 8s dropped 1-1/8 to 101-8, but only one bond appeared for sale. Other foreign loans were quiet and mixed.

## BAPTISTS OF ISLAND MEET

Rev. G. A. Reynolds Elected President at Annual Meeting Here

Rev. G. A. Reynolds, Victoria, was elected president of the Vancouver Island Baptist Association at the annual meeting held Saturday in the First Baptist Church. Sessions were held in the afternoon and the meeting concluded with an address in the evening by Rev. Ebert Paul, Vancouver.

Officers re-elected were: First vice-president, Donald Smith, Emmanuel Church, Victoria; second vice-president, Mrs. F. W. Dafeo, Calvary Church, Chemainus, and third vice-president, Mrs. C. A. Friend, First Church, Nanaimo. Stanley Ralph, Douglas Street Church, was chosen secretary-treasurer.

Addressing the closing gathering, Mr. Paul took as his subject the theme of the meeting, "The Challenge to the Church in War-time."

**MUST HUMBLE SELVES**  
The message from the church to the war-torn world is that Christ is the Way, the Truth and the Light, and only by humbling ourselves as a nation before God can we ever hope to obtain victory in the present conflict, the speaker said.

In the afternoon, Rev. F. W. McKinnon led a worship service and Mrs. Bert Noel was soloist at the women's discussion which followed. Mrs. William Russell spoke on the "Relation of Our Women's Work to the Baptist Union of Western Canada" and Mrs. W. P. Freeman discussed "The Challenge to the Women in the War."

F. N. Findlay led the laymen's discussion on the practical service which could be rendered to the men of the services by the church.

Mr. Reynolds spoke at the dinner, which was followed by the elections. A song service and devotional period were held by the young people, with Ian Hind, Nanaimo, as speaker.

### BEER SIGN

An advance party of Australians arrived at a mined village, where they hoped there would be a change from the everlasting tea. There was not a drop of comfort in the place, so they went down to the river, determined to inflict a share of their disappointment on others.

They put up a huge board and painted a pointing arrow and, in giant white letters, the words: "Beer! Beer!"

Other units passing that way cheered when they came in sight of the notice, only to find when they reached the board, in minute letters, "Can be obtained in all the leading hotels of Australia. Follow the traffic arrow 10,000 miles due south-east."

Use a wet cloth or soft absorbent cotton to pick up broken glass. The tiniest bits will adhere to it. But it is wise to destroy the cloth or cotton when the operation is over.

### CHAPTER II

"Isn't she a picture!" he said. "But one can never get a word with her. I've been here before and it's always like her. She appears as a hostess for a few moments, and then she's gone."

"My heavens, Peter, are you in love with her?"

"Why, yes, of course. Who isn't?"

"You'd better not let Vivian hear you say that."

"Yes, let Vivian hear it," and a man came round the corner of the rose hedge.

"Hello, Forrest," and Peter grasped his hand. "Anne says for me not to let you know I'm in love with your wife."

"Yes? Well, everybody else is. That's why I'm going to take more fencing lessons."

"But you fence better than any of us now," Anne said.

"I know I do, Anne, but I shall have a lot of duels on my hands. Are you an expert?"

"No, and I'm sick and tired of it already. I like the tournament idea, all dressed up in feathers and ribbons, but I hate practicing."

"It has to be done, though, if you want to keep fit," Forrest told her. "Jean and I practice fifteen minutes every day of our lives. It's the only way."

"Fifteen minutes doesn't sound like much," Haskell demurred.

"Oh, we do a lot else. But if you're sure of that fifteen minutes every day, you'll never get too far behind. Come on over and see my new Merrile England bar."

They strolled on to a quaint little building, absurdly reminding of an old pub, hinting of roystering rogues and village barmoids.

Other newly-arrived guests were there, and in their midst was Jean, the perfect hostess.

She was indeed more beautiful than day. Her nearly two years of marriage had in no way lessened her charm. As the chatter, edged by cocktails, grew more general and more merry, Jean slipped away for a good-night kiss to her baby.

She ran up to the child's nursery and found the capable nurse Rhoda hushing the little one to sleep.

Though Rhoda Harmon was a specialized child's nurse, and believed in and obeyed all the most modern rules for the care and feeding of infants, she flung her instructions to the wind when the baby's mother came to the nursery door. Jean was allowed to take up the rosy mile and love and cuddle her just as old-fashioned mothers used to do.

Jean was interrupted by the appearance of a housemaid with the message that Mr. Forrest wished Mrs. Forrest to come downstairs immediately; more guests had arrived.

As Vivian met Jean at the foot of the stairs, she passed him quickly and went to speak to a girl who stood looking a bit bewildered.

"Susy Kirk!" Jean exclaimed. "How glad I am to see you. I wasn't sure you would come."

"Nor I. I just simply ran away. Don't tell anybody I'm here, will you?"

"Course not. Don't your people know?"

"Oh, no. They think I've gone to Aunt Grace's."

"I'll be an Aunt Grace to you. Now you sit right down here by Austin Forrest—he's Vivian's brother, and you can call him Austin, and he's lots of fun."

Jean went on and left the girl with Austin.

"I didn't know Viv had a brother," Susy said, looking at the handsome face smiling down at her.

"Half-brother, really, but we're both Forrests. Why have I never discovered you before?"

"My people won't let me go to house parties unless I take a chaperon with me, and I detest chaperons, and they detest me."

"Yes, I should think they would. You must lead them a dance."

"I do. Who is that stunning man over by the mantle?"

"That's Brandon Sayre. Want to meet him?"

"Ooh! The jungle explorer? No, I'd be scared to death of him."

"He shoots only wild beasts, not pretty little girls. He's just home from Borneo or Timbuctoo or some point East. See, the women are all crazy about him."

"They can have him. I like you better."

"Thank you, Miss Minx. Somehow, I feel sure you are a minx. It's too bad, but the minute I meet you, they all start to go to sleep for dinner. Shall I have you sit by me at the table?"

"Oh, yes, do. Can you manage it?"

"I can and will. I'm manager of this house. Viv thinks he is, but that's his error. Anything you want, any time, anywhere, just let me know."

Jean came along then and took Susy away with her. With Jean was Brandon Sayre, who stayed behind with Austin Forrest.

"How are you, old man?" said the returned traveler. "It's good to be back in civilization."

## B.C. EXAMINES BRITISH ORDER

Several Issues Guaranteed By Province Are Held in Part in London

Hon. John Hart, at the head of the British Columbia Treasury, declined comment yesterday on a statement made by Hon. J. L. Riley, at Ottawa, announcing that the Imperial Treasury had issued a vesting order calling for delivery to it of Canadian securities owned by residents in the United Kingdom.

The move, it was unofficially intimated, might mean much or little to the British Columbia Government, depending upon the express classes of securities concerned in the vesting order. Until the exact list is made known, official comment was held to be premature in so far as the Province is concerned.

Several classes of securities guaranteed by the Province are held in part in Britain. These are understood to include what is known as the perpetuals, 4 and 4-1/2 per cent securities, and also the P.G.E. guaranteed issue.

It is expected that cable advices from the Province's fiscal agents in London will shortly make the position clearer here. British Columbia Treasury officials declined any comment at this stage of the proceedings. Meanwhile, partial lists cited in the Ottawa dispatches were being examined with interest.

Since then he had served in destroyers of the Royal Canadian Navy, and escaped serious injury in the Fraser, when she was sunk off the coast of France. Mrs. Lewis is at present staying with friends in Esquimalt, with her two small daughters, Margaret Ruth, aged eight, and Doreen Ann, two and a half. ### OVERCOME BY GAS

CALGARY, Oct. 28 (C.P.)—A father and two daughters were in hospital today after narrowly escaping death from asphyxiation in their home Sunday morning. The father, Fred Wardley, and his daughters, Irene, six, and Jessie, ten, were overcome by coal gas fumes generated in a coal stove and released into the home by a faulty chimney.

### The Danger of Coughs Among the Children

In young children a cold or cough is not a thing to be disregarded, as it is often of a grave nature, and unless attended to immediately may, eventually, cause serious trouble.

On the first sign of a cough or cold the mother will find in Dr. Wood's Norway Pine Syrup a remedy to help get rid of the trouble.

Its promptness and effectiveness in loosening the phlegm, and stimulating the bronchial organs is such that the cough may be checked before anything of a serious nature sets in.

Price 35c a bottle; the large family size, about 3 times as much, 60c, at all drug counters.
